

## SPECIAL NOTICES.

TO THE POLICY HOLDERS OF THE COMMERCIAL FIRE INSURANCE COMPANY OF THE D. C.

A policy holder, your attention is called to the fact that the Commercial Fire Insurance Company has received and thereby has turned over all of its liability under its policies covering property in the District of Columbia to the Fireman's Fund Insurance Company of California, as of May 27, 1914, at noon.

The connection made between the two companies by a special form of contract, which provides that any loss or damage by fire occurring under your policy is to be paid by the Fireman's Fund Insurance Company of California, backed by its assets of \$10,000,000.

I also beg to advise you that the undersigned, who has for the past 22 years been associated with the Commercial Fire Insurance Company, has resigned his position, and that he may still look after your interests in the Fireman's Fund Insurance Company, which company he now represents. You will therefore note that I have not only provided for you such strong protection against loss or damage by fire, but have deemed it best that I still represent your interests in the same careful manner which I have endeavored to do in years that have passed.

Your business, be it great or small, I assure you, will always be appreciated, and I will ever give any insurance matters you may intrust to me my personal attention.

If you prefer, I shall be very glad to stamp upon your policy the following endorsement over my signature, as agent for the Fireman's Fund Insurance Company, although this is not necessary.

After May 27, 1914, at noon, the undersigned company guarantees the payment of any loss or damage that may occur hereunder in accordance with the conditions of this policy.

If you desire your policy changed as above, please bring it to my office any day between 9 a. m. and 5 p. m. Yours respectfully,

Office: Room 6, Southern building, 15th and H sts. n. w.

On and after this date I will not be responsible for any loss or damage that may occur under my policy.

INASMUCH AS IT WAS FOUND IMPOSSIBLE to reach with a personal letter all who so generously contributed time, money, goods, services or purchased tickets for the success of the donor's party held on June 1, 1914, for the benefit of St. Ann's Infant Asylum, under the auspices of the Knights of Columbus, the committee in charge beg leave, on behalf of the donors in charge of the party, to express their appreciation of the method of extending to all persons, firms and corporations who contributed in any manner to the splendid success of the undertaking.

Thanks for the generous and unselfish manner in which the donors of the party, regardless of creed or religion, responded to the appeal in behalf of the helpless orphan babies committed to the care of the Sisters of Charity and the tender ministrations of the charitable people of Washington.

Therefore, we beg that this notice be accepted by all who are entitled to our thanks and appreciation as follows:

## TO HAVE DEGREES FROM GEORGETOWN

Spanish Ambassador and Gov. Glynn on the Anniversary Honor List.

2,000 ALUMNI EXPECTED HERE FOR CELEBRATION

Exercises Scheduled to Begin With a Banquet on the Evening of June 13.

Georgetown University at the celebration of the 125th anniversary of its founding will confer the honorary degree of doctor of laws upon Senor Don Juan Riano y Gayanvez, Spanish ambassador to the United States.

The degree of doctor of letters will be given to Thomas Walsh of Brooklyn, N. Y. Other candidates for degrees have submitted theses. The graduating class of this year, which numbers 400, will receive college degrees in arts, sciences, law, medicine and dentistry.

The conferring of degrees will be the feature of the commencement exercises on the college campus June 13. The address to the graduates will be made by Gov. Glynn of New York. President Wilson has been asked to attend and inaugurate the celebration.

Chief Justice White of the United States Supreme Court and many persons prominent in the affairs of church and state.

Madrid University Graduate.

Senor Riano, the first ambassador of Spain to this country, was graduated from the University of Madrid and received degrees in civil and canon law. He started his diplomatic career in 1896 and served in Bogota, Caracas, Paris, London, Copenhagen and Christiania before coming to Washington.

More than 2,000 former students of Georgetown from all over the United States have announced their intention to be present at the celebration which begins with a banquet at the college refectory the evening of June 13. The baccalaureate sermon will be delivered at 11 o'clock Sunday morning at Holy Trinity Church by Rev. Jeremiah M. Prendergast, S. J., the honor man of the class of 1914.

Following the reception the alumni will gather in the quadrangle and recall their boyhood days by singing old college songs.

Monday morning will be given over to sports and athletic events. The work of this portion of the program will be a game of base ball between the "old boys" and the seniors of this year. Class-day exercises and reunions will mark the afternoon, and will conclude with the parade of former students and alumni by classes around the college "walks." This procession is expected to be the most striking feature of the celebration. The secretaries of the various classes are striving to outdo each other in devising features to distinguish the different "years," and many interesting and fantastic costumes are expected to be worn. A brass band will lead the parade.

Social Features on Program.

Special features will mark the evening of Monday. The seniors will hold a dance in the Ryan gymnasium and a smoker will be given for the alumni in Ryan Hall. The commencement Tuesday will conclude the formal part of the celebration. Class dinners may be arranged that evening by different secretaries at downtown hotels.

Rev. A. J. Donlon, S. J., president of the university, has presided at the meetings of both the executive and the general committee of arrangements. Father Donlon is the first alumnus of Georgetown to hold the position of president of the university. Much of the detail work of the many meetings of the committees and the sending of notices to the various secretaries fell upon Rev. Francis A. McGuire, S. J., who served as vice chairman of the executive committee. Other members of the executive committee were Thomas M. Harvey,

## YOUNG STUDENTS BEST

A. Lawrence Lowell, President of Harvard, Says American Youth Is Too Much Held Back.

CHICAGO, June 6.—Students who enter college when young, as a rule, are better scholars and better in conduct than older entrants, according to A. Lawrence Lowell, president of Harvard University, who tonight delivered an address at the annual banquet of the Associated Harvard Clubs. Delay in entering school, President Lowell said, is chief reason for so many students leaving college after their third year.

"Some men stay only three years in college," he said, "and hasten to get actively at work in the world, although they feel no financial pressure. Considering the present age of entrance, this is not without justification."

"Children in the United States are sent to school late. Boys who should be prepared for college at sixteen or seventeen are held back on the theory that they are too young to be exposed to the temptations of college life."

"This is clearly a mistake. Statistics have demonstrated that students who enter young are on the average better scholars than the older ones."

The banquet closed the eighteenth annual meeting of the associated clubs. President Lowell and Samuel S. Greeley of the class of 1844 were the guests of honor. The 1914 meeting will be held in San Francisco.

## WEATHER.

Partly Cloudy and Warmer Today; Monday Unsettled and Warm.

For the District of Columbia, Maryland and Virginia, partly cloudy and warmer today. Monday unsettled and warm; gentle to moderate south winds.

Although pressure has risen somewhat in the Rocky mountain region, it is still abnormally low west of the Mississippi river, and has also fallen considerably over the upper lake region.

The region of the lowest pressure forms a narrow trough, extending from New Mexico to South Dakota, and thence northward to Alberta. Notwithstanding the low pressure, extremely low temperatures persist in the Pacific states and the plateau region and have extended eastward into Montana, Wyoming and western Colorado. Snow fell Saturday morn-

ing in northern Utah, with the lowest June temperature of record at Salt Lake City, Utah.

There were general rains in the Pacific states and showers over the middle and northern districts to the eastward as far as the upper lake region, with heavy rain in eastern Nebraska and central South Dakota. Elsewhere the weather was generally fair, except in the south Atlantic and east gulf states and Texas, where there were local showers.

Moderate temperatures continue in the east and south, but in the central valleys and the southern upper lake region they are quite high.

Unsettled showery weather will continue over the western half of the country, and will extend eastward during Sunday into the central valleys and the upper lake region, continuing Monday southward into the lower lake region, New England and probably the middle Atlantic states. There will also be more showers in the south Atlantic and east gulf states.

It will be warmer Sunday in the Atlantic states, and somewhat warmer in the extreme west. It will be cooler Sunday in the plains states, and on Monday in the central valleys, except the upper Ohio.

Storm warnings are displayed on the Pacific coast from Point Lobos to Eureka. The winds along the north Atlantic coast will be strong to moderate during Sunday; on the middle Atlantic coast moderate south; on the south Atlantic coast moderate east and southeast; on the east and west gulf coasts moderate to fresh south; on the upper lakes fresh south; Sunday, showers, probably thunder squalls; on the lower lakes moderate southeast to south Sunday, increasing cloudiness, probably thunder showers on Erie.

Yesterdays Temperatures.

Midnight, 58; 2 a. m., 57; 4 a. m., 52; 6 a. m., 54; 8 a. m., 61; 10 a. m., 67; 12 noon, 70; 2 p. m., 74; 4 p. m., 75; 6 p. m., 71; 10 p. m., 60. Highest, 75; lowest, 52.

Relative humidity—8 a. m., 45; 2 p. m., 38; 8 p. m., 33.

Rainfall (8 p. m. to 8 p. m.)—0.

Hours of sunshine—148.

Per cent of possible sunshine—100.

Temperature same date last year—Highest, 89; lowest, 53.

Tide Tables.

Today—Low tide, 12:48 a. m. and 1:42 p. m.; high tide, 6:53 a. m. and 7:30 p. m.

Tomorrow—Low tide, 1:43 a. m. and 2:34 p. m.; high tide, 7:47 a. m. and 8:22 p. m.

The Sun and Moon.

Today—Sun rose, 4:35 a. m.; sun sets, 7:21 p. m.

Tomorrow—Sun rises, 4:35 a. m.; sun sets, 7:22 p. m.

Moon sets 3:30 a. m.
